Price:	8.292,21 € (nett:6.968,24 €)

Product description

This set of summer wheels in RS Spyder design is specially designed for the Porsche 911 model 992.1 (pre-facelift, built between 2019 and 2024) and offers an excellent combination of style and performance. The set consists of two 20-inch rims measuring 8.5J x 20 ET53 and two 21-inch rims measuring 11.5J x 21 ET67. The rims feature an attractive black satin finish that is not only aesthetically pleasing but also offers high resistance to scratches and abrasion. The rims are fitted with high-quality Goodyear "Eagle F1 Asymmetric 3" summer tyres, which are known for their excellent performance on dry and wet roads. The tyre sizes are 245/35 R20 at the front and 305/30 R21 at the rear, ensuring an optimal balance between comfort and grip. This tyre combination has been specially selected to improve the vehicle's driving dynamics and handling.

In addition, the wheels are equipped with tyre pressure monitoring sensors (TPMS), which constantly monitor the air pressure and inform the driver of any pressure loss, contributing to vehicle safety. The OEM number for this wheel set is 992044661P, which confirms its authenticity as an original Porsche part. As a new, unused and undamaged product, this wheel set offers a reliable option for Porsche owners who value quality and originality. This summer wheel set is an excellent choice for Porsche 911 drivers who want to equip their vehicle with stylish and functional wheels that have been specially developed for their model.

Technical specifications
