Product description

This high-quality Turbo V wheel set for the Porsche 911 model 992 is an excellent choice for vehicle owners who value aesthetics and performance. The set consists of two different sizes: the front wheels measure 8.5J x 20 ET40 and the rear wheels measure 11J x 21 ET66, guaranteeing an optimal fit and impressive appearance.

The rims are made of robust material that not only promises a long service life, but also improves the handling and stability of the vehicle. The specific dimensions of the rims enable improved handling, which is particularly advantageous when cornering and at high speeds.

The OEM number for this set of rims is 992601025Q OC6KPL, which confirms their authenticity and quality as original Porsche parts. This item is new, unused and undamaged, making it a safe and value-adding investment for your Porsche 911.

This set of rims is not only functional but also aesthetically pleasing, giving your vehicle a striking and sporty look. Ideal for drivers who value both performance and style.
