| Price: | 4.273,29 € (nett:3.591,00 €) |

Product description

This set of 20" Taycan Tequipment Design Winter Wheels is specifically designed for the Porsche Taycan J1 model, covering the years 2020 to 2024. The set includes two sizes of rims: front rims measuring 9J x 20 ET54 and rear rims measuring 11J x 20 ET60. These dimensions ensure a perfect fit and balanced aesthetics for your Taycan.

The wheels are equipped with brand new Goodyear winter tires, sizes 245/45 R20 for the front and 285/40 R20 for the rear, providing excellent traction and performance in winter conditions. The inclusion of TPMS (Tire Pressure Monitoring System) sensors enhances safety by ensuring that tire pressure is always monitored, alerting you to any significant changes that could affect driving performance.

The OEM number for this product is 9J1073600G SCH, confirming its authenticity as a genuine Porsche Tequipment accessory. This set is in a used condition but qualifies as 'Porsche Originalteile', indicating that the rims are like new with very low mileage and possibly minimal signs of use or storage. The tires are brand new, ensuring optimal performance with zero kilometers on them.

This winter wheel set not only enhances the safety and performance of your Porsche Taycan during the colder months but also maintains the stylish appearance characteristic of Porsche design. Whether navigating snowy roads or icy conditions, this wheel set provides the reliability and quality expected from Porsche Tequipment accessories.

Technical specifications

| | |
