Product description

This set of 20" SportDesign summer wheels is specially designed for the Porsche 911 model 991.1 C4/4S/GTS, suitable for vehicles with all-wheel drive prior to the facelift. The wheel combination includes 8.5J x 20 ET51 and 11J x 20 ET52 rims, which ensure an optimal fit and excellent driving performance. The fitted Pirelli P Zero summer tyres in sizes 245/35 Z20 at the front and 305/30 Z20 at the rear offer excellent grip and high stability in warm weather conditions.

In addition, the wheels are equipped with TPMS (tyre pressure monitoring system) sensors, which constantly monitor the pressure in each tyre, ensuring increased driving safety. The OEM numbers for these specific wheels are 99104460282 and 99104460232, confirming their authenticity and compatibility with the specified Porsche model.

As new original Porsche parts, these wheels not only guarantee a perfect fit, but also comply with Porsche's high quality standards, making them an ideal choice for upgrading or replacing your current wheels.
