Product description

This set of 21" SportPlus summer wheels for the Porsche Cayenne E1 (models 955/957) combines excellent performance with stylish design. The rims measure 10J x 21 ET50 for the front axle and 10J x 21 ET45 for the rear axle, ensuring an optimal fit and outstanding driving characteristics.

The wheels are fitted with new Michelin summer tyres in size 295/35 R21, which are known for their durability and excellent grip on both dry and wet road surfaces. These tyres not only offer improved road grip, but also increased safety and comfort.

In addition, the wheels are equipped with TPMS (tyre pressure monitoring system) sensors, which constantly monitor the pressure in the tyres and thus contribute to safety by informing the driver when the tyre pressure falls below the recommended level.

The OEM number for this wheel set is 95504460220, which confirms their authenticity as original Porsche parts. The condition of the wheels is described as very good and undamaged, making them an excellent choice for drivers who value quality and originality.

This high-quality wheel set is not only functional but also aesthetically pleasing, giving your Porsche Cayenne a sportier and more elegant look. Ideal for drivers who do not want to compromise on performance and style, both in everyday use and on longer journeys.

Technical specifications

Front rims:	Article number: 955362158009A1 Quantity: 2 Rim width: 10J Rim diameter (inch): Offset (ET):
