<b>Price:</b>	<b>11.401,08 €</b> <b>(nett:9.580,74 €)</b>

## Product description

This set of 21" exclusive design summer wheels is specially designed for the Porsche Taycan J1 (built between 2019 and 2024) and offers an outstanding combination of style and performance. The rims measure 9.5J x 21 ET60 for the front axle and 11.5J x 21 ET66 for the rear axle, ensuring a perfect fit and excellent driving stability.

The wheels are fitted with high-quality Goodyear summer tyres, which measure 265/35 R21 on the front axle and 305/30 R21 on the rear axle, offering optimum grip and excellent handling characteristics in warm weather conditions. This tyre combination ensures balanced performance at both high speeds and when cornering.

A special highlight of this wheel set are the carbon aeroblades. These components are not only visually appealing, but also functional, improving the aerodynamics of the vehicle, which leads to increased efficiency and improved driving performance. The item is new, unused and undamaged, making it an excellent choice for Porsche Taycan owners who do not want to compromise on quality and performance. The OEM number for this wheel set is 9J1073660S, which confirms its authenticity as an original Porsche part. This wheel set is not only an excellent choice for enhancing the aesthetics of your Porsche Taycan, but also for increasing its overall performance and driving dynamics during the summer months.

## Technical specifications

Front rims:	Article number: 9J1601025S 041 Quantity: 1 Rim width: 9,5J Rim diameter (inch): Offset (ET):
