Price:	9.043,99 € (nett:7.599,99 €)

Product description

This 21-inch Turbo S winter wheel set for the Porsche Panamera model 976 is ideal for drivers who do not want to compromise on performance and aesthetics, even in the coldest months of the year. The set includes four high-quality rims that have been specially designed to meet the demands of winter conditions. The dimensions of the rims are 9.5J x 21 ET71 for the front axle and 10.5J x 21 ET71 for the rear axle. The high-gloss black finish of the rims not only gives your vehicle an elegant look, but also offers protection from the elements.

The rims are fitted with Michelin Pilot Alpin 5 winter tyres, which are known for their excellent traction and performance on snow and ice. With tyre sizes of 275/35 R21 on the front axle and 315/30 R21 on the rear axle, these wheels ensure an optimal balance between grip and driving comfort. The central locking system allows for quick and safe mounting and removal of the wheels, which is particularly advantageous in winter. The OEM number 976044601M confirms that this is a genuine Porsche part. The rims are new, unused, undamaged and in immaculate condition, ensuring their quality and longevity. This winter wheel set is not only a functional addition to your Porsche Panamera, but also a visual upgrade that perfectly combines safety, performance and style during the winter months.
