Product description

This high-quality AERO KIT "CUP II" engine cover with rear wing is specially designed for Porsche 911 models of the 996.2 series from 2002 to 2004. It is an original Porsche spare part with the OEM number 99651290102G2X, which fits perfectly on the C2/C4 Coupé variants. This kit not only gives your vehicle the dynamic GT3 look, but also improves aerodynamics.

The engine cover is fully equipped with an integrated rear wing, which has been specially developed for improved stability at high speeds. The kit is easy to install as it is designed as a direct replacement for the standard part, allowing for seamless integration into the vehicle design.

The item is new and unused, without any damage. As a Porsche original part, it guarantees the highest quality and accuracy of fit, ensuring the longevity and performance of your vehicle. Ideal for Porsche enthusiasts who want to enhance the appearance of their vehicle and optimise its performance.
