## Product description

This 6-speed manual transmission, designated with the code G87.20, is specifically designed for the Porsche Boxster S and Cayman S models under the 987.1 series. It is an essential component for drivers who prefer precise and engaging control over their vehicle's powertrain. The transmission allows for smooth and direct gear shifts, enhancing the driving experience by maximizing performance and responsiveness.

The OEM numbers for this transmission are 98730001024 and 98730001022, ensuring it is a direct replacement and guarantees compatibility with the specified Porsche models. This gearbox is used but in very good condition, showing only minor signs of wear or handling, which do not detract from its performance or functionality. As an original Porsche part, it maintains high-quality standards and reliability.

This gearbox is an excellent choice for restoring or maintaining the drivetrain integrity of your Porsche Boxster S or Cayman S, ensuring continued enjoyment and performance of your vehicle. Whether you're looking to replace a failing transmission or upgrading for improved performance, this genuine Porsche part offers both reliability and superior driving dynamics.
