Price:	378,00 € (nett:317,65 €)

Product description

The servomotor for the parking brake offered here is a high-quality original Porsche spare part that was specially developed for the rear axle on the left-hand side. This part is compatible with the Porsche Panamera model series 971 and the Porsche Cayenne model series 9Y0, which were produced from 2018 onwards. The OEM number 9A790761500 confirms its authenticity and perfect fit for the models mentioned.

As an essential component of the braking system, this servomotor contributes significantly to the functionality of the parking brake. It enables reliable activation and deactivation of the brake, which provides additional safety and stability, especially when parking on different surfaces. The use of original Porsche parts ensures that the high quality and performance of your vehicle is maintained.

It is recommended that this part be installed by qualified personnel to ensure optimal function and maximum safety. The servomotor is new, unused and undamaged, making it an excellent choice for guaranteeing the longevity and reliability of your Porsche parking brake.
