<b>Price:</b>	<b>644,39 €</b> <b>(nett:541,50 €)</b>

## Product description

The luggage compartment box is made of soft components: its innovative dropstitch material, known from the sports sector, is not only particularly comfortable, but also extremely robust. It reliably withstands scratches, bites, dirt and liquids. Thanks to the hygienic and water-repellent material properties, the luggage compartment box can be completely washed down with water from the inside and outside. The openings of the luggage compartment box are made of translucent mesh fabric, which ensures for good ventilation. One of the windows is on the ear of the box, allowing a clear view of the vehicle interior. The robust zips can be fixed so that they cannot be opened by the dog. The luggage compartment box has a carrying handle on the underside, and the window reveals serve as additional handles. It serves as a place to sleep at home, for example, or as a familiar retreat when travelling. Luggage compartment box narrow: Suitable for Yorkshire Terriers, Pekingese, Dachshunds, Miniature Poodles, Pomeranians and many more breeds up to 18 kg
