Product description

This rear window for the Porsche 911 model 993 Targa is an essential replacement part for maintaining the vehicle's original appearance and functionality. The window is specifically designed with a pre-cut hole to accommodate the rear windshield wiper arm, ensuring that the wiper can be installed without any modifications required. This feature is particularly important for maintaining clear visibility during adverse weather conditions.

The OEM number for this product is 99356290100, confirming its authenticity and guaranteeing a perfect fit with the specified models. This part is brand new, unused, undamaged, and comes as an original Porsche part, ensuring that the quality and durability meet the exact standards of the manufacturer.

Suitable for Porsche 911 models under the 993 series, this rear window is an ideal choice for replacements or upgrades. It maintains the car's aesthetic integrity while ensuring functionality is not compromised. The installation of this window will help preserve the vehicle's value and keep its iconic look intact.

As a genuine Porsche part, you can be confident in its reliability and performance. The window's clear, high-quality glass provides excellent visibility and resistance to environmental factors, making it a durable choice for your Porsche 993 Targa.
