Product description

The steering gear for the Porsche Taycan, OEM number 9J1423051AP, is an essential component of the steering system that transmits the driver's steering movements to the wheels. This steering gear, specially developed for the Porsche Taycan, guarantees precise and responsive control, which is particularly important for the driving dynamics and safety of the vehicle.

The steering gear offered is used but in very good and undamaged condition. It is an original Porsche part, which ensures high quality and durability of the product. The use of original parts also ensures that the specific requirements of the vehicle are met exactly without compromising the performance or warranty of the car.

This steering gear is an excellent choice for Porsche Taycan owners who need a replacement part that maintains the original specifications and performance of the vehicle. It not only supports the optimal functionality of the steering system, but also helps to maintain the value of the vehicle.
